**Roadmap**

**Resources**

## Introduction

**Agrichainx Tribe (AGXT) token is a governance token in Agrichainx Ecosystem.**

**Agrichainx (AGX) on the other hand is a community-based project that focuses on advancing farmoperations with the application of Blockchain Technology, Artificial Intelligence (AI), Internet of Things (IoT) and Big Data, which helps in connecting farmers to market, finance, tools and resources.**

**Agrichainx therefore is a project with sixteen operational models which is built to solve the challenges associated with agriculture. Agrichainx currently has over a million active community members, which are now migrating to a digital community called Decentralized Autonomous Organization (DAO).**

**Agrichainx Tribe DAO is a digital community that makes up of investors, validators, shareholders, loyalists and enthusiasts. It is a fully Decentralized Autonomous Organization that governs Agrichainx project with her sixteen operational models. The DAO operates on a liquid democracy model and it determines how the project functions; the kind of changes that should be made on the project, and it also ensures the standard and stability of the project is maintained in line with the expectations of the entire community.**

**Only AGXT holders can present proposals on Agrichainx DAO platform, and it is only such holders can vote for the approval of such proposals. This means all Agrichainx DAO are holders of AGXT because AGXT is the governance token for Agrichainx Ecosystem.**

## Transparency

**Transparency is one of the Agrichainx Team's highest priorities. New dedicated volunteers are frequently encouraged to work with the team to ensure community representation, and community voting is regularly conducted to help decide the best direction of the project.**

Through our digital community known as Agrichainx Tribe DAO, Community votes will be taken on how to allocate funds, which exchange to focus on for the AGXT listings, and any other Proposal that will add value to AGXT and Agrichainx project at large

## Treasury Account

**Treasury account is a shared wallet which holds assets owned by a DAO. Each DAO can have any number of treasury accounts holding different assets. Anybody can deposit tokens into treasury accounts but only the DAO members can ever approve withdrawals through treasury transfer proposals.**

## Token

The token of Agrichainx Tribe Token are as follows:

- The token of AGXT as follows:
- Total Supply 50,000,000.
- Presale: [15% of the total supply]: 15,000,000.

## Passive staking rewards in your wallet

As per the contract, Pitbull holders automatically receive a distribution from 2% of each transaction of the Agrichainx Tribe token.

This function is a unique and easy way for holders to receive rewards directly to their wallet without the need to stake or farm on other platforms. This saves gas fees and allows compounding with ease of mind.

The passive staking rewards from holding PIT increase rapidly as PIT gains more recognition and thus more transaction volume.

**"To see growing numbers of PIT in your wallet just by holding is priceless."**

## Use Cases/ Ecosystem

The volunteer software and web development team is constantly working to bring new utility to PIT. Despite being only about two months old (launch date 03/17/2021), there are already various projects released and underway.

### Released

#### **AGXTTracker (Beta)**

Investors can easily follow their PIT token holdings and see exactly how much they've accrued from the auto-staking rewards.

#### **AGXTCharts (Beta)**

A charting and analysis tool for all tokens on the Binance Smart Chain.

Once it is fully released, it will generate income from ad spaces and premium features that require PIT tokens to use, which will further help the burn and project funding.

#### **AGXTFarm (Beta)**

This will allow users to stake PIT-BNB v1 for points to redeem official Pitbull NFTs, or buy them straight out. These NFTs can be traded in the marketplace, and the sales will go towards the Pitbull community fund and artist as a minting fee. The funds raised will go towards charity, project development, and burning Pitbull tokens.

# AGRICHAINX

The funds from NFT sales are distributed as follows:

- 15% goes to marketing
- 15% goes to shelter donations
- 60% is sent to the PIT liquidity pool
- 10% for the minting and designing process

## PitSwap (Alpha)

Automated Market Maker tool that allows easier trading experience for new investors to buy PIT. Future plans to evolve this Pit Swap into an ecosystem much like PCS that will involve in a creation of a new token that is co-beneficial with PIT for staking, farms, own routing and trading fees towards burning and project development. Token must be intensively researched before proceeding to the next stage.

## AGXTStore (Alpha)

This will allow users to purchase official Pitbull merch via USD and will plan to integrate PIT to the payment system

Creating a brand image and increase in needed funding that will go towards project development, charity, and burning. Preview here:

## AGXTStop (Planning and building)

A place to connect all PIT tools into one easy webpage. A social network that is defined by one's wallet address.

## PitFund (Planning)

This will be a fundraising platform which utilizes PIT as a currency to support those in need. A small service fee will be taken from each donation which will go to the Pitbull community fund wallet.

## PitGames (Planning)

A section on the Pitbull website that will allow you to play a variety of games in-browser, including a card trading game and potentially a lottery game.

## Roadmap

- |               |  |
|---------------|--|
| August 2022.  | Website launching and branding         |
| August 2022   | Social Media Channels.                 |
| August 2022   | AGXT logo adds to Solscan              |
| August 2022   | AGXT Presale                           |
| October 2022  | AGXT listings on price tracking sites. |
| January 2023  | AGXT listing on major exchanges        |
| February 2023 | Official AGXT NFT and Media.           |
